### **August 21, 2000 Student Organizations**

Student organizations shall generally be encouraged when they meet the simple criteria of contributing to learning rather than detracting from it. Such organizations shall operate within the framework of the law, Board policy, administrative rules, and the parameters of the learning program. When such organizations are truly contributive, their establishment and operation shall be facilitated in reasonable ways by District staff and through utilization of District resources.

The Superintendent shall develop general guidelines for student organizations. Among other provisions, such guidelines shall require the assignment of at least one faculty advisor to each student organization; the control of all monies through the appropriate principal-supervised school activity fund; and prior approval by the Board of any student organization requiring the use of District or school-managed facilities or funds.
