|                    | EV                        | 6         | 4         | 3         | 2        |  |
|                    | WV                        | 17        | 0         | 0         | 1        |  |
|                    | Lincoln                   | 5         | 2         | 4         | 3        |  |
|                    | <b>Total</b>              | <b>68</b> | <b>69</b> | <b>21</b> | <b>7</b> |  |

The second week of February has seen consistent numbers in quarantined and positive staff. For example, the number of quarantined and COVID positive staff members have remained virtually the same as last week. Similarly, the student positivity rate has dropped another 50%. On the other hand,

what is GREAT news is that the student quarantine rate has dropped nearly 67% in one week! We attribute these numbers to the lowering of student and staff quarantine and positivity rates to the use of PPE and social distancing.

Another important statistic for our school district is our inventory of PPE. Currently district-wide we have the following PPE items. Currently, there is no shortage of PPE throughout the country. Nonetheless, it is important for us to keep an accurate inventory so we don't run out.

|                           |        |
|---------------------------|--------|
| Total PPE District - Wide |        |
| Date                      | 2/15   |
| Youth Masks (#)           | 26,850 |
| Adult Masks (#)           | 18,300 |
| Oxivar Wipes              | 678    |

In closing, the continued drop in the positivity rate state-wide and the deployment of the vaccine we are slowly returning to normal. We will continue to emphasize the use of PPE and social distancing for our students.

Sincerely,  
Rolf Sivertsen  
Superintendent  
Canton Schools
